

Terroir

Our vineyard is located in the village of Chablis, in the very heart of the Chablis country, on the **left bank** of the Serein River, with a **south-south east** exposure. It is located in the climate called **Les Pargues**.

The soil is **kimmeridgien calcareous clay** which goes back to the upper Jurassic age (**portlandien**).

Our vineyard has just ended its organic conversion.

Density plantation: 6500 vines/ha

Average age of the vines: **57-67 years**

Vinification

Harvested by hand, carried by small trailers, which unload the grapes by **vibration** to avoid crushing, then we use a **sorting table** to eliminate unripe or damaged grapes.

Pneumatic winepress.

Cool racking and temperature-controlled fermentation.

Fermentation with indigenous yeast

Vinification and aging: **100% in stainless steel vats during 10 to 12 month.**
